# INDEX TO VOLUME 20

Abt, I. A., and Tumpeer, I. H.: The significance of xanthochromia of the cerebrospinal fluid with report of a case in a premature infant..... 153

Acrocephaly and scaphocephaly with symmetrically distributed malformations of extremities. E. A. Park and G. F. Powers..... 235

Amyotonia congenita. N. O. Pearce..... 393

congenita (Oppenheim); report of case with full histopathologic examination. J. B. Holmes..... 405

Ataxia, acute cerebrocerebellar. J. P. C. Griffith..... 82

Atrophy, infantile spinal progressive muscular (Werdnig-Hoffmann); report of case with necropsy findings. E. J. Huenekens and E. T. Bell 496

Beaven, P. W.: Pneumococcus peritonitis in infancy and childhood..... 341

Bell, E. T., and Huenekens, E. J.: Infantile spinal progressive muscular atrophy (Werdnig-Hoffmann); report of case with necropsy findings 496

Bleyer, Adrien: Concerning direct sales in diphtheria..... 445

Blood and circulation in normal infants and in infants suffering from chronic nutritional disturbances. K. Utheim..... 366

Blum, J.: Active immunization against diphtheria in a large child caring institution ..... 22

Bodily mechanics: relation to cyclic vomiting and other obscure intestinal conditions. F. B. Talbot and L. T. Brown..... 168

Book Review ..... 562

Brown, L. F., and Talbot, F. B.: Bodily mechanics: its relation to cyclic vomiting and other obscure intestinal conditions..... 168

Byfield, A. H.: A polyneuritic syndrome resembling pellagra-acrodynia (?) seen in very young children; report of cases..... 347

Calcium metabolism of premature infants. B. Hamilton..... 316

Carter, W. E., and Porter, L.: Observations on tumors of the kidney region in children..... 323

Circulation and blood in normal infants and in infants suffering from chronic nutritional disturbances. K. Utheim..... 366

Cowie, D. M.: A case of priapism resulting from rapidly spreading myxosarcoma with generalized metastases..... 211

The duct sign in mumps..... 75

PAGE

Denzer, B.: A new method of diagnosis of peritonitis in infancy and childhood, preliminary report ..... 113

Diagnosis of mumps, new duct sign in. D. M. Cowie ..... 75

of peritonitis in infancy and childhood, new method of. B. Denzer .... 113

Diphtheria, active immunization against, in large child caring institution .. 22

concerning direct smears in. A. Bleyer ..... 445

effect of on heart. H. McCulloch ..... 89

Doyle, L. O., and Scammon, R. E.: Observations on the capacity of the stomach in the first tendays of postnatal life ..... 516

Elephantiasis congenita angiomatosa (Unna) associated with changes in capillaries. M. K. Miller and K. M. Nelson ..... 127

Empyema in infants and young children. R. C. Spence ..... 545

Erythrocytes, fate of subcutaneously injected. R. Taylor ..... 337

Exercise, graduated, circulatory reactions of normal children to. M. G. Wilson ..... 188

Esophagus, congenital atresia of; report of case. H. L. K. Shaw ..... 507

Extremities, symmetrically distributed malformations of, with acrocephaly and scaphocephaly. E. A. Park and G. F. Powers ..... 235

Eye, in hereditary syphilis. J. Green, Jr ..... 29

Fingers, symmetrical gangrene of, in purpura. M. Michael ..... 124

Foot, N. C.: Report on a case of malignant thymoma with necropsy ..... 1

Foote, J. A.: The hemorrhagic tendency as a frequent cause of cranial hemorrhage of the new-born ..... 18

Gangrene, symmetrical, of fingers in purpura. M. Michael ..... 124

Genito-urinary diseases of children, review of literature on, for 1919. L. W. Hill ..... 222

Green, J., Jr.: The eye in hereditary syphilis ..... 29

Greenthal, R. M.: A study of the urine sugar in infants ..... 556

Griffith, J. P. C.: Acute cerebrocerebellar ataxia; report of case ..... 82

Groebner, O. A., and Ramsay, W. R.: Further progress in the study of the relative efficiency of the different mercurial preparations in the treatment of congenital syphilis in infants and children as determined by a quantitative analysis of the mercury elimination in the urine .. 199

Grulee, C. G.: Precipitins for egg albumin in stools ..... 15

Hamilton, B.: The calcium metabolism of premature infants ..... 316

PAGE

Heart, effect of diphtheria on. H. McCulloch..... 89

in nutritional disturbances in infancy. H. McCulloch..... 486

Heiman, H.: A study of pneumonia in infancy and childhood during recent epidemic ..... 119

Hemorrhage, cranial, of new-born, hemorrhagic tendency frequent cause of. J. A. Foote..... 18

Hill, L. W.: A review of the literature of 1919 on the genito-urinary diseases of children..... 222

Holmes, J. B.: Amyotonia congenita (Oppenheim); report of case with full histopathologic examination..... 405

Huenekens, E. J., and Bell, E. T.: Infantile spinal progressive muscular atrophy (Werdnig-Hoffmann); report of case with necropsy findings 496

Immunization, active, against diphtheria in large child caring institution. J. Blum ..... 22

Infancy and childhood, pneumococcus peritonitis in. P. W. Beaven..... 341

Infant, premature, significance of xanthochromia of cerebrospinal fluid; report of case. I. A. Abt and I. H. Tumpeer..... 153

Infants and children, relative efficiency of mercurial preparations in treatment of congenital syphilis of. W. R. Ramsay and O. A. Groebner 199

and young children, empyema of. R. C. Spence..... 545

blood and circulation in normal and those suffering from chronic nutritional disturbances. K. Utheim..... 366

premature, calcium metabolism of. B. Hamilton..... 316

Jeans, P. C.: Review of the literature of syphilis in infancy and childhood .....55, 132

Kidney, tumors of, in children. L. Porter and W. E. Carter..... 323

Knox, J. H. M.: Lesions in midbrain; report of case..... 436

McCulloch, H.: Studies on the effect of diphtheria on the heart..... 89

Studies on the heart in nutritional disturbances in infancy..... 486

Marriott, W. McK.: Some phases of the pathology of nutrition in infancy 461

Mechanics, bodily, relation to cyclic vomiting and other obscure intestinal conditions. F. B. Talbot and L. T. Brown..... 168

Mercury preparations, relative efficiency of, in treatment of congenital syphilis. W. Ramsay and O. A. Groebner..... 199

Metabolism, calcium, of premature infants. B. Hamilton..... 316

Metabolism of very obese child with small sella turcica (typus Froelich). F. B. Talbot..... 331

PAGE

Meysenbug, L. von: Studies in spasmophilia. I. Spasmophilia and vitamins 206

Studies in spasmophilia. II. Electrical reactions in older children..... 539

Michael, M.: Case of purpura with symmetrical gangrene of the fingers.. 124

Midbrain, lesions of; report of case..... 436

Miller, M. K., and Nelson, K. M.: Elephantiasis congenita angiomatosa (Unna) associated with changes in capillaries..... 127

Mumps, duct sign in. D. M. Cowie..... 75

Myxosarcoma, rapidly spreading with generalized metastases, causing priapism. D. M. Cowie..... 211

Nelson, K. M., and Miller, M. K.: Elephantiasis congenita angiomatosa (Unna) associated with changes in capillaries..... 127

New-born, cranial hemorrhage, hemorrhagic tendency frequent cause of. J. A. Foote..... 18

Nutrition, disturbances of, heart in. H. McCulloch..... 486

Nutrition, some phases of pathology of, in infants. W. McK. Marriott.. 461

Park, E. A., and Powers, G. F.: Acrocephaly and scaphocephaly with symmetrically distributed malformations of the extremities; a study of the so-called acrocephalosyndactylism..... 235

Pearce, N. O.: Amyotonia congenita..... 393

Pellagra-acrodynia (?), polyneuritic syndrome resembling, seen in very young children; report of cases. A. H. Byfield..... 347

Peritonitis, in infancy and childhood, new method of diagnosis of. B. Denzer ..... 113

pneumococcus, in infancy and childhood. P. W. Beaven..... 341

Pneumonia, study of, in infancy and childhood during recent epidemic. H. Heiman ..... 119

Porter, L., and Carter, W. E.: Observations on tumors of the kidney region in children ..... 323

Powers, G F., and Park, E. A.: Acrocephaly and scaphocephaly with symmetrically distributed malformations of the extremities; a study of the so-called acrocephalosyndactylism..... 235

Priapism resulting from rapidly spreading myxosarcoma with generalized metastases. D. M. Cowie..... 211

Purpura, with symmetrical gangrene of fingers. M. Michael..... 124

Ramsay, W. R., and Groebner, O. A.: Further progress in the study of the relative efficiency of the different mercurial preparations in the treatment of congenital syphilis in infants and children as determined by a quantitative analysis of the mercury elimination in the urine.. 190

PAGE

Scammon, R. E., and Doyle, L. O.: Observations on the capacity of the stomach in the first ten days of postnatal life..... 516

Scaphocephaly and acrocephaly with symmetrically distributed malformations of extremities. E. A. Park and G. F. Powers..... 235

School boys, twenty-four hour schedule for. R. M. Smith..... 115

Smith, R. M.: A twenty-four hour schedule for school boys..... 115

Spasmophilia and vitamins. L. von Meysenbug..... 206

and electrical reactions of older children. L. von Meysenbug..... 539

Shaw, H. L. K.: Congenital atresia of the esophagus; report of a case.. 507

Spence, R. C.: Empyema in infants and young children..... 545

Stomach, capacity of, in first ten days of postnatal life. R. E. Scammon and L. O. Doyle..... 516

Stools, precipitins for egg albumin in. C. G. Grulee..... 15

Sugar in urine of infants, study of. R. M. Greenthal..... 556

Syphilis, congenital, relative efficiency of mercurial preparations in treatment of. W. A. Ramsay and O. A. Groebner..... 199

eye in hereditary. J. Green, Jr..... 29

of infancy and childhood, review of literature on. P. C. Jeans.....55, 132

Talbot, F. B.: Studies in metabolism. II. The metabolism of a very obese child with a small sella turcica (typus Froelich)..... 331

Talbot, F. B., and Brown, L. T.: Bodily mechanics: its relation to cyclic vomiting and other obscure intestinal conditions..... 168

Taylor, R.: The fate of subcutaneously injected red blood cells..... 337

Thymoma, malignant, case of. N. C. Foot..... 1

Tumors of kidney region in children. L. Porter and W. E. Carter..... 323

Tumpeer, I. H., and Abt, I. A.: The significance of xanthochromia of the cerebrospinal fluid, with report of a case in a premature infant.... 153

Urine, quantitative analysis of mercury elimination in, as test of efficiency of mercurial preparations in treatment of congenital syphilis. W. A. Ramsay and O. A. Groebner..... 199

sugar, study of, in infants. R. M. Greenthal..... 556

Utheim, K.: A study of the blood and circulation in normal infants and in infants suffering from chronic nutritional disturbances..... 366

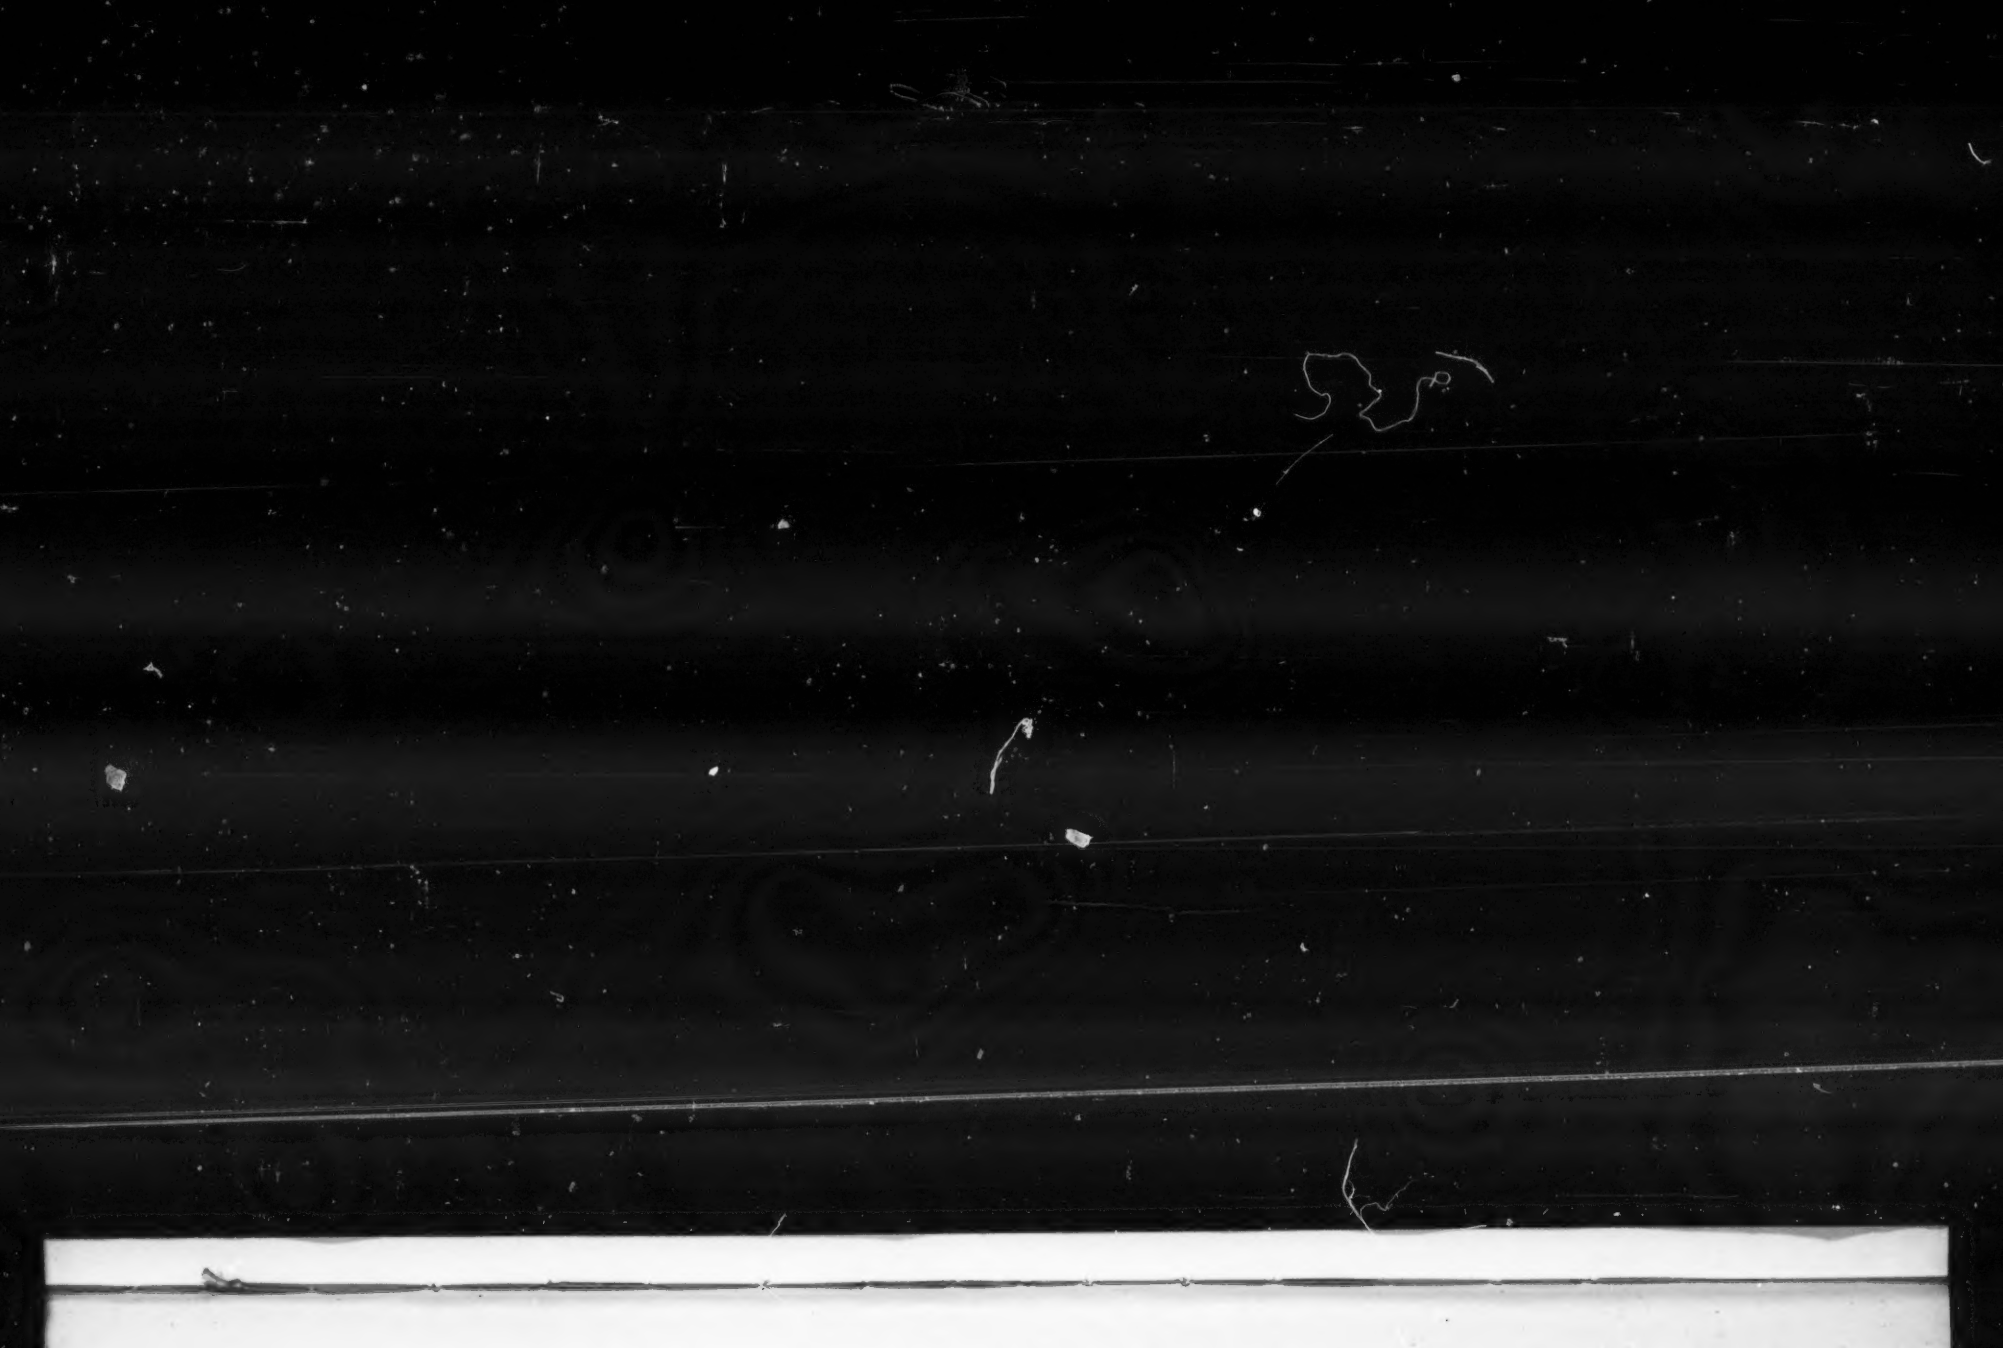
Vitamins and spasmophilia. L. von Meysenbug..... 206

Vomiting, cyclic, relation of bodily mechanics to. F. B. Talbot and L. T. Brown ..... 168

PAGE

Werdnig-Hoffmann infantile spinal progressive muscular atrophy; report of case with necropsy findings. E. J. Huenekens and E. T. Bell... 496

Wilson, M. G.: The circulatory reactions to graduated exercises in normal children ..... 188

Xanthochromia of cerebrospinal fluid in premature infant. I. A. Abt and I. H. Tumpeer..... 153


Thirty cents each will be paid for the following issues of the AMERICAN JOURNAL OF DISEASES OF CHILDREN: January, 1913; February, March, November and December, 1914; January and August, 1915; January, 1918; March and April, 1919. Address to AMERICAN MEDICAL ASSOCIATION, 535 North Dearborn Street, Chicago, Ill.
